## Food Trader Application Form

Sheffield's original night market, Peddler takes place each month between March - December at 92 Burton Rd, inside our 7500 sq.ft. warehouse on the edge of historic Kelham Island.

Two years into some serious peddlin, Spring 2017 saw record breaking visitor numbers for Peddler, with over 7,000 people through the gates over the weekend!

**If you'd like to apply to trade at Peddler, please complete the application form and specify which dates you would like to trade.**

Please note, we work closely with our neighbours and as such, we don't accept applications from traders selling pizzas, baked goods, teas & coffees or alcohol.

## Trader Fees

**£50 +VAT deposit per day trading.** This deposit secures your spot and will be refunded following your participation in the event. It is non-refundable in the event of cancellation or if the Terms & Conditions as outlined below haven't been met.

**15% of gross revenues (inc. VAT) payable after each day's trade.** The original deposit paid will be subtracted from the end total owed to the Peddler team organisers.

## Total Power Requirements

**We need this information from you to ensure that you can trade.**

Traders must specify **total power requirements** in the Trader Application Form to ensure provision, including ampage, kilowattage, number of appliances and socket types.

Traders are prohibited from bringing their own electricity supply, but please do bring extension cables and additional sockets in case they're required.

## **Arrival times**

**Fridays // Traders are expected to arrive between 2 – 2.30pm, ready to serve at 5pm.**

**Saturdays // Traders are expected to arrive between 11 – 11.30am, ready to serve at 2pm.**

All loading vehicles will need to be off site 30 minutes before the event starts and we will enforce this strictly. Traders are expected to be ready to serve at the start of the event.

Please ensure you arrive during the times specified. Failure to do so may mean you're unable to trade.

We allocate trading pitches carefully across the site plan, considering electrical needs, trader variety and pedestrian flow. For these reasons, there will be no opportunity to swap pitches.
